

I have been told that somehow we may lose the K-Love radio station due to LPFM having priority over current FM stations, I would be very disappointed if I wasn't able to listen to K-Love. It provides the soothing uplifting music that I need every day. I think many people in my local community feel the same way. K-Love provides music that glorifies God. In our nation the majority of people believe in some kind of god and yet there are so few Christian radio stations. Please don't do anything that would take K-Love off the air in any city. Sincerly, Marci Gilbertson
